The Department of Cardiology at Bhubaneswar Apollo Hospitals offers a complete range of the latest in heart care treatments that include Non-interventional, Preventive Cardiac Care and all types of Interventional Cardiac Procedures such as Coronary Angiogram, Coronary Angioplasty, Peripheral Angioplasty and Congenital Shunt Lesion Device closures. These procedures are supported by the latest GE CATH Lab. Our Coronary Care Unit is well equipped with the state of art equipments and is on par with any of the best

centers in the world. Our cardiac care team consists of highly trained Interventional Cardiologists and the supporting staff who are well trained in the latest technologies. Our utmost focus is to prevent cardiac diseases by patient and community education and to provide the best mode of treatment whenever it is required.

The centre for cardiothoracic surgery at Apollo Hospitals, Bhubaneswar is one of the best centers in Odisha providing modern quality driven care. The surgical team comprises of excellent and experienced surgeons trained in the best institutes in India. Highest international standards have already been set to this specialty to achieve best clinical out-comes and utmost satisfaction to the patients and their families.

The cardio-surgical program consists of Minimally Invasive Coronary Artery By-pass Graft surgery and Repair and Reconstruction of Heart Valves which has proven to be a much superior modality compared to valve replacements. Total Arterial Revascularization surgery for complex heart problems and Cardiac re-operation are also provided. Furthermore, surgery using minimal access results in cosmetically superior and minimal scars. Our team has vast experience of managing all types of Congenital Heart Defects in all age groups. The surgical team is ably supported by the state of the art ICU and highly experienced intensive care consultants.
