Shaheed Nagar Bhubaneswar-751007

## Sparsh Hospitals & Critical Care (P) Ltd

Dr Priyadarshini Tripathy is a very experienced Consultant Obstetrician and Gynaecologist practising in Bhubaneswar, Odisha. She finished her medical training (M.B.B.S.) from the MKCG Medical College, Odisha in 2014, graduating with two university gold medals. After graduation, she commenced her specialist training in Obstetrics & Gynaecology at S.C.B. Medical College, Cuttack, one of the largest and oldest tertiary care medical centres in eastern India. Apart from clinical work during the training, she got actively involved in numerous clinical trials, and she received great acclaim for her research in various national & international platforms, including multiple publications in prestigious international peer-reviewed journals.

After finishing her specialist training in 2018, she moved to the United Kingdom to pursue post-graduation training in Global Health Science and Epidemiology at the University of Oxford which was fully funded by the British Government Chevening Scholarship as well as the Weidenfeld-Hoffmann Trust (WHT), UK. There, she acquired the skills in the areas of population health, research, leadership and policy which prepared her to offer unique solutions in the field of pregnancy care from a preventive aspect. Additionally, she also worked at the Oxford University Hospital's Fetal Medicine Unit with a training focus in high-risk pregnancy and obstetric ultrasound. This invaluable experience enabled her to develop specialty knowledge in the field of advanced maternal and fetal medicine, the concept which was less known at that time in Odisha.

Later on, in 2020, she joined Monash Health, Melbourne, Australia to get advanced training in Obstetrics and minimal access surgery. The training was not only clinically enriching but also exposed her to advance laparoscopy and cutting-edge research. In addition, she was fellowship-trained in Laparoscopic Minimal Access Surgery (FMAS) from World Laparoscopy Hospital, New Delhi affiliated with the World Association of laparoscopic surgeons (WALS). After returning back to India, she worked at Tata Medical Centre, Kolkata in Gynaec-Oncosurgery to further enhance her skills in women's cancer surgeries, colposcopy and preventive oncology.

Choosing the right obstetrician and gynaecologist for you is one of the most important decisions you will make in your health journey as a woman. Dr Priyadarshini's goal is to ensure that you experience the highest standard of care and feel fully informed every step of the way.
